School-Based Mental Health Services Informed Consent Form

Pacific Grove Unified School District offers short-term individual and group counseling to students. Parents/guardians or school staff may refer students for counseling, or students may request counseling.

I understand that school-based counseling services are short-term services aimed at the more effective education and socialization of my child within the school community. I understand that these services are not intended as a substitute for diagnosing or treating any mental health disorder. Counseling and mental health support at the school are voluntary services. Counselors may make recommendations and referrals for more care, and the family is responsible for following up on those recommendations if they choose. The family may also seek other mental health care as they choose.

With some possible exceptions, the counseling team will keep the information confidential to build trust with the child. Because these services are provided to minor children in the school setting, I understand that the school counselor may share information with parents/guardians, the child’s teacher, and administrators or school personnel who work with the child on a need-to-know basis so that we may better assist the child as a team. The counselor is also legally required to share information with parents or others if the child is in danger of harm to self or others. The counselor will make the child aware of these confidentiality limits and inform the child when sharing information with others. If you would like the counselor to share information with a third party, such as a community counselor, psychiatrist, social services worker, or pediatrician, you must sign an additional release of information form.

I encourage you to contact us whenever you have a question, input, or concern or would like an update on your child’s progress in counseling.
